SQC 45 Guidance Document

SQC 45 – Chemical Test Reports

Each shipment shall be accompanied by one legible copy of the actual test data from the chemical tests conducted on materials submitted to PacSci EMC. The reports must contain the **material lot number, specification, material type, and signature of the responsible representative or subtier supplier** (Electronic signature or signed validation is acceptable unless otherwise specified by contract) attesting to conformance to specification requirements.

Common Actions to Verify

1. **Verify that the all information matches the PO.**
2. **Verify that material lot number ties to other submitted documents**
3. **Verify specification meets drawing requirements**
4. **Verify that report is signed**
